BUSINESS TROUBLES. PAILURES IN SEVERAL BRANCHES OF TRADE-SUS PENSION OF MALLORY & BUTTERFIELD, WILLIAM

LOCAL MISCELLANY.

P. BOBERTS, A. S. HERMAN, AND OTHERS. Several failures were announced down town on Saturday, causing some uneasiness in commercial circles. The first was the assignment of Mallory & Butterfield, paper board dealers in Broadway, to Frederick H. Pfeiffer, of all their property for the benefit of their ereditors. Mallory & Butterfield have been in trouble for some time past, and had virtually failed a month age, but by an arrangement with their creditors continued iness. Matters became worse, however, and they have been compelled to make this general assignment. Next in consequence was the failure of William P. Roberts, a grain dealer and member of the Produce Exchange, who has been doing business under the name of John S. Roberts's Son at No. 10 Front-st. In the absence of Mr. Roberts, a gentleman in the office stated that the failure was due to heavy advances and reclamations on grain, and unfortunate speculations in grain by Mr Roberts. He had purchased wheat and other grain at high prices, and the decline in the market caused him considerable loss. The hous was established many years ago by John S. Robwas established many years ago by John S. Rob-erts, the father of William, and the business had been fairly successful. A statement of the assets and liabili-ties is preparing, but will not be ready for some days. Roberts has been arrested by the Sheriff on a warrant granted by Judge Lawrence of the Supreme Court, at the instance of Isaac H. Reid & Co., flour and grain mer-chants, No. 10 State-st., who accused him of having ob-lained from them a car-load of corn, valued at \$6,000, on frandulent representations. He gave bail and was released.

A. S. Herman, dealer in woolens at No. 17 White-st., has made an assignment of his property for the benefit of his creditors. Owing to the fact that Mr. Herman was celebrating the Jewish holiday no facts could be obtained from him. The house was established many years ago, and failed in 1857, when it paid in fall. In January last it was said to have a capital of \$100,000, which has now shrunk to \$30,000.

Murrell & Co. of No. 62 Stone-st, and George Reichenberg, having an office in the basement of the Cotton Exchange, both cotton brokers, sent notices to the Exchange on Saturday that they were unable to meet their engagements. Murrell & Co. did an extensive business, and their difficulties are attributed to speculation. They state that the cause of the notice of suspension was based on a mistake in a statement of their financial condition furriedly taken from their books. They hope to resume this week. Reichenberg's fathure is not of great importance.

CHARGES AGAINST DUNCAN, SHERMAN & CO. SUIT BROUGHT BY THREE OF THE CREDITORS, WHO ALLEGE FRAUD-THE MEMBERS OF THE FIRM ARRESTED AND BAIL GIVEN.

The arrest of the members of the firm of Duncan, Sherman & Co., although not unexpected, caused considerable comment in Wall-st. on Saturday. The arrest was the result of the action of Washington A. Roebling, Ferdinand W. Roebling, and Charles G. Roebling, sons of the late John A. Roebling, who have begun suit against Wm. Butler Dunean, Wm. Watts Sherman, and Francis H. Grain, composing the firm of Duncan, Sherman & Co. The complainants set forth that on July 21, 1875, they purchased from Duncan, Sherman & Co. a bill of exchange, for which they poid \$1.637 75, drawn on the Union Bank of London. The plaintiffs ask for judgment for the sum of \$1,637 75, and an additional sum of 10 per cent for damages. The affidavit accompanying the complaint sets forth that the defendants have for the past twenty years done business under the name and style of Duncan, Sherman & Co.; that they had enjoyed an extended reputation as wealthy and honevable bankers; that they transacted a very large business in remittances to Europe and elsewhere; that the were reputed to have a capital of millions; that William Butler Duncan owned real estate in the cities of New-York and Newport and elsewhere worth nearly \$1,000,000, and that this real estate was permitted to remain of record unchanged and in the name Butler Duncan up to July 27, 1875; that each of the defendants lived in princely style, and each of them was classed among the millionaires of the United States, and that it was reported without contradiction by the defendants that the dowry of daughter of Mr. Duncan would be \$1,000,000. The affidavit further recites that the banking house of Duncan, Sherman & Co. daily received large sums of money on deposit and bore the appearance of a presperous and solvent firm. Relying on this apparent solvency, the complainants purchased the bill of exchange. Within six days afterward the firm suspended payment and declared themselves hopelessly insolvent. It is further alleged that William Butler Duncan, about three months previous to the failure, had conveyed his real estate to his father, but that the deeds remained in the possession of the defendants and were not recorded until the day after their failure; that the liabilities of the defendants were, on the day of the failure, about \$5,000,000, and their supposed assets about the defendants were, on the day of the falltre about \$5,000,000, and their supposed assets about
\$2,000,000; but the complainants believe that the assets
of the firm will not realize this sum; that the firm, on
July 21, 1875, when it issued the bill of exchange to the
complainant, was hopelessly insolvent, and the partners
knew that fact, and that they would not have sufficient
funds in the Union Bank to meet and pay the same; that
the concealment of the would not have sufficient
the sone alment of the fact that the deck were
recorded at the time named, as the perpetration of a
fraud and deceit on the public and particularly on the
complainants; that the dechanants continued to do business on July 21, 1875, that they had exhausted every means
of relief, and possessed no financial resources whatever
to cover the large deficiency of \$5,000,000
which
then existed; that the defendants willfully cheated and
defrauded the plaintiffs out of the sum of money already
given. An affidavite and complaints, Judge Lawrence

tions. Referring to the recent withdrawal of his propo-sition, he says:

I withdraw the proposition simply because it was not ac-cepted by a sufficient number of creditors to warrant me in carrying it out. The proposition was, in my judgment, best calculated to realize the maximum amount from the assets at the annimum of expense. Its withdrawal leaves the matter when it was before I made the proposition. It now remains with the creditors to either allow the assignment which has been made to Judge shipman to stand, or to surgest some other course which may, in their opinion, be to their mierest. My only duty now is to aid the assigner, as far as lies in my power, in realizing the assets.

POLICE BOARD RESIGNATIONS.

COMMISSIONERS VOORHIS AND SMITH PLACE LETTERS OF RESIGNATION IN THE MAYOR'S HANDS-RE-FUSAL OF COMMISSIONERS MATSELL AND DIS-BECKER TO RESIGN-PREPARING AN ANSWER TO THE MAYOR'S LETTER-RETICENCE ON ALL SIDES.

It is understood that as the result of the letter addressed by the Mayor to each of the Police Commissioners on Friday, Commissioners Voorhis and Smith have placed their resignations either conditional or direct in the hands of the Mayor. When asked about the matter, the Mayor declined to say anything further than that he had received the resignations of Commissioners Voorhis and Smith. He also declined to make public the letter he had sent to the Police Commissioners or the replies from Commissioners Voorhis and Smith. He in timated, however, that the correspondence would be made public at an early day. From a trustworthy so it has been ascertained that the charges in the Mayor's letter are general; that be refers to the evidence developed before the Committee on Crime as showing that members of the police force are derelict in their duty; that the Department is not what it should be if it is to be depended on to protect the lives and property of the community; that it has lost the confidence of the citizens at large, and that it would be very much better for the Commissioners to resign than to compel the Mayor to resort to extreme measures. The recent presentment by the Grand Jury in reference to the Police Board was also mentioned. The Commissioners were requested to forward their answers to the charges on or before Wednes-

day in the event of their sot resigning.

President Matsell and Commissioner Disbecker have decided not to send in their resignations, but to remain in their places and demand the fullest investigation of their acts. They did not receive their appointments from Mayor Wickham, and they state that until they are proven to be derelictin duty they have a perfect right to remain in office. President Matsell has retained as counsel Elbridge T. Gerry, and Commissioner Disbecker bas retained John H. Straban and John I. Daveaport. They were in consultation with their counsel a good part of the day on Saturday.

Headquarters. At the same time he wished it understood that there was not an official act of his that he was not willing to have investigated in the fullest manner. When seked if he thought it would not seem to the public as if he had resigned under charges, and apparently in order to escape the edium of removal, Commissioner Voorhis declined to answer, for the reason that it would be in effect saying whether or not he had resigned. It would all be made clear in good time he added. As to the removal of Tammany inspectors of election, he could not say whether or not thus was the cause which impelled the Mayor to send his letter to the Commissioners. No inquiry was made as to the political faith of the removed inspectors, whether Tammany or Republican. The Board received the proofs as to the charges of unitiness or disqualification of the inspectors, and removed them.

and removed them.

Commissioner Disbecker said that he certainly did not Commissioner Dissecker said that he certainly did not propose to resign. He was conscious that he had been cuity of no dereliction of duty, and he proposed to meet whatever charges might be made. He courted an investigation of his official acts. He had been engaged all summer as Chairman of the Street Cleaning Commission, in attending to that branch of the Department, having taken only one week's vacation. The books and records of the Department were open for inspection. He had nothing to conceal.

of the Department were open nor imspectors. The above of the resignation of Commissioners Voorhis and Smith created a good deal of comment around the City Hall, among the politicians, and at Police Headquarters, and throughout the Police Department. No one seemed to be able to explain fully the situation of affairs. It is expected there will be further developments of interest index.

PURCHASE OF A WESTERN RAILROAD. INTENTIONS OF GERMAN BONDHOLDERS CONCERNING THE ROCKFORD, ROCK ISLAND AND ST. LOUIS LINE-H. OSTERBERG'S MISSION.

H. Osterberg, who went to Europe some time ago to report his action in regard to the purchase of the Rockford, Rock Island and St. Louis Railroad to the German bondholders, returned to this city last week. In conversation with a THIBUNE reporter on Saturday be stated that he had returned for the purpose of completing the purchase of the road as agreed upon before he left for Europe. "The Committee of the German bondholders are well pleased," he continued, " with what has been done, and they have placed the whole management of the affairs of the road in my hands, together with all the money necessary to complete its purchase. I cannot tell, however, until I get back to Chicago, (for which place I shall leave this evening) cago, (for which place I shall leave this evening) whether I shall roorgatize the Company and operate the road for the bondholders direct, or accept one of the several propositions made to me for its purchase before I left for Europe. The road to-day stands in my name, and it rests entirely with me to say what shall be done, with the whole responsibility thus resting upon my shoulders. I shall of course take ample time to decide what is for the best interests of the bondholders, but this can probably be done within the next two or three vector.

THE NOE MURDER. EXAMINATION AND COMMITAL OF JOHN DOLAN-STATEMENT OF THE PRISONER.

John Dolan, who was arrested on suspicion of being the man who murdered James H. Noc, was taken on Saturday before Justice Wandell, of the Washington Place Police Court, from the Central Police office, by De tended by one of her sons and Mr. Walsh, the jeweler whe sold Mr. Noe the watch which Dolan pawned on the morning of Aug. 23. They both identified the watch as the one which belonged to Mr. Noe, Mrs. Noe declaring that her husband had it with him a he went to the store on the day of the marder, and that she missed it when she saw her husband. Mrs said that the prisoner Dolan answered the description which her husband gave of the on who had robbed and struck him. Dolan maintained a stelld look on his face, and appeared other-

maintained a stolid look on his face, and appeared otherwise nervous and ill at ease. Mr. Black, the pawnbroker, was not present, he being a Jew, and Saturday being a great Jewish fast day, "Your Kippur," or the "Day of Atonement." As his testimony is most essential in order to fix the pawning of the watch on Dolan, the examination was adjourned until to-day at 10:30 a.m.

Dolan admitted the pawning of the watch, but has already told so many different stories in relation to it that none of his statements are behaved. Although only 22 years of are, his record is already a sad one. He is a man of great strength and endurance, and has often been engaged in fights. He has served two terms in prison, and is well known to the police os an old offender. Superintendent Walling feels confident that Dolan is the murderer, and that enough evidence can be obtained to convict him. lan was again brought up at the Washington Piace

Dolan was again brought up at the Washington Place Police Court yesterday. The only new testimony taken in the case was that of Deputy Coroner Dr. Cushman, who made alidavit that Mr. Nee died of meningitis, caused by a fracture of the skull-Dolan, when arraigned to answer the charge of murder, made the following statement: "My name is John Dolan, I am 22 years of age. I was born in Liverpool. I live at No. 93 Baxter-st. I am entirely innecent of all connection with the homicide. I will prove at the proper time that my statement to Officer Dorsey as to how I became possessed of the watch was true," Justice Wandell held him, without bed, to appear for trial.

BURGLARIES AND THEFTS.

At the Tombs Police Court yesterday Michael urns, a bricklayer, was charged by Victor Fisco of No. 191 unknown man, at Mott and Grand sts. on Saturday night, as

at Edgewater Park on Saturday evening to express their indignation at the action of the Staten Island Railway Company and the Pilot Commissioners against the opposition or Garner line of ferrybonts, and the new club house of the New-York Yacht Club. Speeches denouseing Mr. Vanderbilt, the Staten Island Radiway Company, the Pilot Commissioners, and the Vanderbilt "monopoly" generally were made by M. J. Wyeth, S. R. Bowen, W. C. Anderson, and made by M. J. Wyeth, S. R. Bowen, W. C. Anderson, and resolutions were adopted stating "that we regard with alarm and indignation the late attempt to forestall and defeat the eventual decision of the course, which now have the question under consideration, by a resort to filegal violence and brute force; and that, as Staten Islanders, we repudiate the claim of any corporation or set of men to the exclusive use of our shores for ferry purposes, and we welcome all who profier us the increased facilities which our insular position requires in order that Richmond County may grow in population, prosperity, and wealth."

The demonstration was lively with fireworks, cannon fring, and cheering. After the formal proceedings a procession was formed, headed by a band of music, and marched to the Vanderbilt Landing and then to the Clab-house pier, where some remarks were made by Charles Franks.

ASSOCIATION FOR IMPROVING THE CONDITION

OF THE POOR. The annual meeting of the Association for Improving the Condition of the Poor will be held this afternoon at the Bible House. An election for President and Treasurer will be made, in consequence of the resig nation of James Brown and Robert B. Minturn. It is understood that a correspondence has taken place between the latter gentleman and some influential friends and supporters of the Association, including Peter Cooper and Adam Norrie. Mr. Minturn, it is stated, has given his reasons for resigning his office in a very decided manner, and the public interested in the future welfare manner, and the public interested in the future welfare of the society and its operations among the poor of this city may fairly expect that this correspondence will be published. There are also three vacancies caused by death among the Board of Managers, which will require to be filled, and an opportunity now exists for the subscribers to elect Managers who will endeavor to restore to the Association its old prestite and win the confidence of the public in its ability to minister adequately to the wants of the distressed, the sick, and the worthy poor of New-York, in cooperation with other societies engaged in the same work.

New Bibliotron, -The Rev. Mr. Prait of St. Mrry's Church, on Castleton ave, has resigned his position as rector, which he has held for fifteen years. POLICE NOTES.

George James of No. 568 Lexington-ave, has been assing since Sept. 17. Henry Brown, employed on the barge Joseph Par-ter, at the foot of Bank st., fell overboard on Saturday evening and was drowned. His body was recovered.

The body of a man aged about 40, was found in the Narrows yesterday. The dead man was five feet and five inches in hight, wore a truss, and was clothed in a black coat and vest and mixed caseliners trousers. During an altercation on Saturday evening in the

harber shop at No. 84 Mulberry place, between William Far-rell, the proprietor, and John MacDonald, Farrell cut MacDon-ald on the right hand with a razor. Farrell was arrested. Agnes Hughes fell down stairs at her residence, at to 192 Henry st., on Friday, and died Saturday morning. Martin Hopkins, age 51, jumped from the ferry-boat Montana last evening, at Roosevelt Street Verry. He was rescued by the deck-hands and sent to the Park Hospita, his leg being badly injured.

SYMPATHY WITH THE FALL RIVER STRIKERS. A meeting of workingmen was held yesterday afternoon in the Germania Assembly Rooms, at No. 291 Bowery, to listen to addresses by delegates from the Weavers' Association of Fall River, descriptive of the condition of the mill employes in that city, and to raise funds for them. John Swinton was Chairman, and said that it was not the laborers that were on strike but capital-capital striking against the perilous strike but capital—capital striking against the perilous penny carned by the workmen. He also condemned the action of the New-York authorities in refusing to allow a meeting to be held in Tompkins-square for a purpose similar to that of the present meeting. Resolutions were adopted praising the course of the Fall River operatives in the recent trouble, and promising them aid. Jonathan Bilteliff, William Jepron, Sinon Morgan, and Job Bailey were the delegates present. The collection taken amounted to \$51-27.

THE REV. DR. FULTON'S RESIGNATION NOT AC CEPTED.

The Rev. Dr. Justin D. Fulton preached at the Hanson Place Baptist Church yesterday morning, his text being from First Peter 1., 5: "Ye also as lively stones are built up a spiritual house, an holy priesthood to offer up spiritual sacrifices acceptable to God by Jesus Christ." The members of the church were exhorted to begin their work for God's kingdom with renewed earnestness. The church was an organized power, and capable of great good. This particular church, he said, had suffered a great trial, but he believed God was only disciplining it for still greater and better work in the future than in the past. It was announced from the pulpit that at a meeting on Saturday evening it was voted by the officers of the church that the resignation of the pastor be not accepted; also, that on Sunday next a special plea would be made both in the morning and evening for money and subscriptions to meet the obligations of the church. There was a large congregation present.

EVILS OF INTEMPERANCE. At the meeting of the American Temperance Union yesterday afternoon at Robinson Hall on Stx-

teenth-st., President D. B. Dyer said that the Caston had determined to declarge aggressive war upon Sunday liquor sellers, and that the Executive Committee would soon perfect their plans. The usual address was delivered by the Rev. A. C. Bowditch of the Methodist Church of Astoria, L. I. He said that since men had first distilled liquor others had been found to preach against its use. The whole system of liquor selling, licensed or unlicensed, was a nuisance. liquor selling, licensed or unlicensed, was a nursance.
While law demanded peace, it permitted liquor to be sold
which produced war and crime. To plead that the businest was damnable, and yet to ask that it should be regulated by law, was an absurdity. Take away the right to
make drunkards, and incbrante asylums would not be
needed. Licensed intemperance was the cause of murders, suicides, and arsons, as well as of untold suffering
and misery.

THE FOUR-IN-HAND CLUB.

The first concerted meeting of the Four-inhand Club on Saturday was not as successful as was anticipated. There are seven or eight mail coaches belonging to private stables in this city, all of which were ex pected to join in Saturday's turnout and drive to the Park. Only three of them appeared at the rendezvous in Madison-ave., at Twenty-seventh-st. These were the large coach of James Gordon Bennett, drawn by four chestnuts purchased in England, and, though new to New-York, already familiar to Summer visitors at New Sew-tork, aiready familiar to Summer Visitors as New-port; Frederick Bronson's drag, with dark bays; and Leonard Jerome's American coach, drawn by four beau-fully matched animals. Mr. Bennett's coach is the largest and heaviest establishment of the kind in the country, and patterned closely after the English mail coach. The three coaches met at the place indicated and drove through Fifth-ave, and the Park and to Jerome Park races, followed by numerous smaller teams, and ad-mired by crowds as they passed.
